

ALWAYS [AWL-WEYZ] - WITHOUT EXCEPTION;
CONTINUOUSLY; FOREVER.

ENDEAVOR [EN-DEV-ER] - TO EXERT ONESELF TO DO
OR EFFECT SOMETHING; MAKE AN EFFORT; TO STRIVE.

**WE ALWAYS ENDEAVOR TO INSPIRE SNOWBOARDERS
BY CREATING PERFORMANCE PRODUCTS THAT
PROVIDE MEANING AND INSPIRATION.**

WINTER 2022 / 23

AS THE WORLD CONTINUES TO SPIN (OUT OF CONTROL), SNOWBOARDING CONTINUES TO PROVIDE SANCTUARY FROM ALL THE NOISE.

DESIGNING SNOWBOARDS FUELS OUR CREATIVE ENERGY AND THIS SEASON WE SOURCE AESTHETIC AND MATERIAL INNOVATION FROM CHEMISTRY AND FURNITURE DESIGN.

WE INTRODUCE THE ION COLLECTION WITH GRAPHICS INSPIRED BY ANCIENT GLASS ALCHEMY. COLLABORATIONS ARE TWO FOLD. FURNITURE DESIGNER NIELS BENDTSEN PROVIDES INSPIRATION WITH WOOD VENEERS METICOUSLY LASER CUT AND ETCHED. BIO LABORATORY CHECKERSPOT COLLABORATES ON THE BIO COLLECTION, CREATING A SNOWBOARD WITH THE LEAST AMOUNT OF PETROLEUM PRODUCTS EVER USED, AUGMENTING A NEW SHAPE CALLED THE FREE RANGER AND FULL 100CM CHANNELS TO TRULY PROVIDE UNLIMITED STANCE OPTIONS. FINALLY, THE LEGACY COLLECTION MAINTAINS ITS FOUNDATION IN DIETER RAMS’ PHILOSOPHY AND CONTINUES AS OUR SEASONLESS COLLECTION OF SNOWBOARDS, THIS YEAR EXPANDING INTO THE SCOUT SHAPE.

AMIDST THE CHAOS, FIND PEACE AND INSPIRATION IN THE MOUNTAINS.

RESET, REFUEL, AND RECHARGE.

ALWAYS ENDEAVOR.

KEY TECHNOLOGY

THE CHANNEL ®

STRONG, FASTER, EASIER AND DESIGNED TO HELP DIAL-IN THE PERFECT STANCE FOR YOU. THE CHANNEL® GIVES YOU THE ULTIMATE CONTROL OF YOUR STANCE AND YOUR BOARD IN A DESIGN COMPATIBLE WITH ALL MAJOR BINDINGS.

LOOK FOR

SMOOTHRIDE SIDEWALLS

INFUSED URETHANE SIDEWALLS WHICH REDUCE VIBRATION AND IMPACT, SIMILAR TO HOW URETHANE SKATEBOARD WHEELS CREATE A SMOOTH RIDE ON ROUGH CONCRETE. DAMPENING THE RIDE, REDUCES BOARD CHATTER AND LEG FATIGUE AND PROVIDES THE SMOOTHEST RIDE EVER.

LOOK FOR

INERTIA CARBON RODS

ENDEAVOR INERTIA CARBON ROD TECHNOLOGY REVOLUTIONIZES THE PHYSICAL PROPERTIES OF CARBON INSERTS. UNLIKE TRADITIONAL CARBON LAYUPS, OUR INERTIA RODS ARE MADE IN A SIMILAR PROCESS TO CARBON FISHING RODS. THIS PRODUCES INCREDIBLY STRONG, 3 DIMENSIONAL RODS WITH A VARIABLE DIAMETER THAT CAN BE TAILORED TO PRODUCE SPECIFIC RATES OF FLEX AND REBOUND IN ANY DIRECTION. THIS RESULTS IN UNPARALLELED RATES OF RESPONSE, PREDICTABLE AND CONSISTENT FLEX AND DURABLE STRENGTH THAT DOESN'T

LOOK FOR

PHONON PRE-TENSION FIBREGLOSS TOPSHEET

UT TENSIO, SIC VIS, "AS THE EXTENSION, SO THE FORCE".

THE PHONON PRE-CURED FIBREGLOSS TOPSHEET SUPERCHARGES SNOWBOARD CONSTRUCTION. ELASTIC ENERGY BUILT UP IN THE CONTINUOUS LAMINATION PROCESS IS RELEASED WHEN YOU FLEX THE BOARD. THE RESULT IS A SUPER LIGHTWEIGHT, POWERFULLY REACTIVE RIDE, WHETHER SPRINGING OUT OF TURNS OR POPPING OFF JUMPS.

THE
ION COLLECTION

ALCHEMY IN COLOUR

THE TREATMENT OF COLOUR FOR THE ION SERIES IS INSPIRED BY ANCIENT FORMULAS FROM THE CZECH GLASSMAKING TRADITION, SOME OF WHICH DATE BACK TO THE 1600S. THESE PROPRIETARY FORMULAS ARE PROTECTED BY VARIOUS GLASS MASTERS IN THE CZECH REPUBLIC, PASSED ON AND REFINED FROM GENERATION TO GENERATION, OFTEN EMPLOYING PECULIAR AND ARCAINE INGREDIENTS SUCH AS ANIMAL BONES, PLANTS AND MINERALS GATHERED FROM THE CZECH COUNTRYSIDE.

THIS ALCHEMICAL APPROACH TO COLOUR YIELDS UNIQUE, MYSTERIOUS, AND UNEXPECTED TONES RARELY FOUND IN THE CONTEMPORARY COLOUR LEXICON, PROVIDING THE PERFECT INSPIRATION FOR OUR SEASONAL SNOWBOARD COLLECTION.

UTILITY BOARD BAG

EBGTPUT

160CM

The Utility bag is our ultimate snowboard transportation option. Whether it's for your dream trip to Japan or your weekly pilgrimage to the local hills the Utility will keep your gear protected.

The Utility features enough space for multiple boards and all your other gear so you can ditch the suitcase. But just in case you don't we've included our stow-able cargo strap system that allows you to attach almost any wheeled case or duffle bag to the outside of the board bag. Simply open the zipper on the bottom of the

bag, pull out the straps, cross them over your bag and hook them through the attachment loops on the top of the board bag. Bags with an extendible handle can also be attached via the oversize velcro handle on the end of the bag for more secure rolling.

The Utility is also equipped with a host of other great features including 2 lightweight packing cells that can fit boots with ease, secure board straps, side carry handle, top lugging handles and external compression straps.

BLACK
EBGTPUT-BLK-OS

- COMFORTABLE SIDE CARRY HANDLE
- TOP LUGGING HANDLES
- EXTERNAL COMPRESSION STRAPS
- INTERNAL BOARD STRAPS
- PACKS DOWN SMALL FOR EASY STORAGE
- INCLUDES 2 LIGHTWEIGHT PACKING CELLS (CAN FIT BOOTS IN TOO)
- FITS MULTIPLE BOARDS UP TO 160CM LONG

TECHNICAL SPECIFICATIONS

PROFILES

TRADITIONAL CAMBER

TRADITIONAL CAMBER IS AN INSTITUTION. WITH A POSITIVE ARCH SHAPE FROM TIP TO TAIL, THIS PRELOADS THE BOARD WITH TONS OF ENERGY FOR A LIVELY AND RESPONSIVE FEELING IN ALL CONDITIONS.

MULTI CAMBER

OUR MULTI CAMBER COMBINES TRADITIONAL CAMBER WITH AN EARLY RISE TIP AND TAIL PROFILE. THIS INCREASES VERSATILITY ACROSS ALL TERRAIN AND REDUCES THE CHANCE OF CATCHING AN EDGE.

3D CAMBER

3D CAMBER COMBINES TRADITIONAL CAMBER WITH A 3D SHAPE AT THE NOSE AND TAIL. JUST LIKE THE BACK OF A SPOON, THIS LIFTS THE NOSE, TAIL AND CONTACT POINTS OFF THE SNOW TO INCREASE VERSATILITY AND REDUCE HANG UPS IN SOFT SNOW WITHOUT COMPROMISING STABILITY OR GRIP ON HARD SNOW.

HOVER CAMBER

FEATURED EXCLUSIVELY ON OUR POWDER QUIVER RANGE, HOVER CAMBER COMBINES TRADITIONAL CAMBER BEHIND THE FRONT FOOT TO THE TAIL WITH AN ELONGATED EARLY RISE OUT TO THE NOSE. THIS RAISES THE NOSE OUT OF SOFT SNOW AND ALLOWS THE TAIL TO SINK IN ALLOWING YOU TO SURF THROUGH THE SOFT STUFF.

SHAPES

DIRECTIONAL

OUR DIRECTIONAL BOARDS HAVE A RAISED NOSE AND A FLATTER TAIL WITH A DIRECTIONAL SHAPE AND FLEX. WITH A LONGER NOSE THAN TAIL, THESE BOARDS HAVE UNPARALLELED POWDER PERFORMANCE AND STABILITY IN ALL CONDITIONS.

DIRECTIONAL TWIN

OUR DIRECTIONAL TWIN BOARDS FEATURE A CLASSIC SNOWBOARD SHAPE THAT CAN BE RIDDEN REGULAR OR SWITCH BUT HAVE A SLIGHTLY LONGER NOSE THAN TAIL. THESE BOARDS PERFORM INCREDIBLY WELL ACROSS ALL TERRAIN WITH BALANCE AND PRECISION.

TRUE TWIN

OUR TRUE TWIN BOARDS ARE IDENTICAL END TO END. CUT THEM IN HALF AT THE WAIST AND YOU WON'T BE ABLE TO TELL THE DIFFERENCE. WITH PERFECT SYMMETRY AND BALANCE THESE BOARDS ARE INCREDIBLY VERSATILE AND ALLOW YOU TO TAKE ON ALL TERRAIN FROM GROOMERS TO POWDER AND PARK.

WIDE BOARDS

OUR WIDE BOARDS ARE DESIGNED FOR RIDERS WITH SLIGHTLY LARGER FEET ALLOWING THEM TO RIDE ALMOST ALL OF OUR BOARDS WITHOUT THE FEAR OF HEEL OR TOE DRAG.

TOPSHEET

PU W/ UV LACQUER

OUR TOPSHEETS ARE DIRECT DIGITALLY PRINTED AND COATED WITH A PROTECTIVE UV STABILIZED LACQUER IN EITHER MATTE OR GLOSS. OTHER GRAPHIC DETAILS ARE ADDED SUCH AS CLEAR PRINTS AND GRAPHIC SCREENS TO GIVE ALL OF OUR BOARDS THE BEST AESTHETIC POSSIBLE.

BASES

DURA SURF 4001 SINTERED

DURABILITY AND SPEED IN A HIGHLY ABSORBENT PACKAGE MEANS THESE BASES WILL NEVER SLOW YOU DOWN. LOTS OF TINY PORES OPEN UP AND ABSORB WAX EVERY TIME YOU SERVICE TO GIVE YOU A SUPERIOR SLIDE. DURA SURF IS THE HARDEST SNOWBOARD BASE IN THE INDUSTRY, KNOWN FOR ITS RELIABILITY, STRENGTH, AND SPEED. ALL ENDEAVOR BASES ARE DIE CUT PIGMENTED BASE MATERIAL AND ARE FINISHED BY A BELT SANDING PROCESS AND FACTORY HOT WAXED SO IT CAN PERFORM RIGHT OUT OF THE BAG.

FIBREGLASS

PRE-CURE

ALL BOARDS INCLUDE A PRE-CURED TRI-AXIAL TOP LAYER OF FIBREGLASS. THESE ARE SOLID, HIGH STRENGTH LAMINATES CONSISTING OF FIBREGLASS PREPREG REINFORCED WITH HIGH STRENGTH EPOXY RESIN AND ONCE SANDED, PROVIDE SUPERIOR STRENGTH AND AESTHETIC FINISH.

TRI-AXIAL

MULTI-AXIS, STITCHED FIBERGLASS LAMINATE PROVIDE A STIFFER, MORE RESPONSIVE FLEX AND GREATER TORSIONAL RIGIDITY TO GIVE THE BOARD PRECISION AND POWER IN A SUPER STABLE AND VERSATILE PACKAGE.

PHENON PRE-TENSION

THE PHONON PRE-CURED FIBREGLASS TOPSHEET SUPERCHARGES SNOWBOARD CONSTRUCTION. ELASTIC ENERGY BUILT UP IN THE CONTINUOUS LAMINATION PROCESS IS RELEASED WHEN YOU FLEX THE BOARD. THE RESULT IS A SUPER LIGHTWEIGHT, POWERFULLY REACTIVE RIDE, WHETHER SPRINGING OUT OF TURNS OR POPPING OFF JUMPS.

MOUNTING

THE CHANNEL™

ALL ENDEAVOR BOARDS COME WITH THE CHANNEL™ MOUNTING SYSTEM. THE CHANNEL™ IS SNOWBOARDING'S ULTIMATE CONNECTION ALLOWING FOR INFINITE STANCE OPTIONS AND RAPID ADJUSTMENT. THE CHANNEL™ IS COMPATIBLE WITH ALL MAJOR BINDING BRANDS SO WHY SETTLE FOR LESS?

EDGES

ROCKWELL 48 STEEL

INCREDIBLY DURABLE STEEL EDGES PREVENT BLOWOUTS AND BREAKAGE ALLOWING YOU TO RIDE HARDER WITH MORE CONFIDENCE.

RUBBER DAMPENING

RUBBER STRIPS ARE ADDED ALONG THE EDGES OF THE BOARD TO REDUCE VIBRATION AND CHATTER FOR A SMOOTHER, MORE COMFORTABLE RIDE.

CORES

POPLAR/PAULOWNIA WOODCORE W/ BIRCH REINFORCEMENT

A BLEND OF LIGHTWEIGHT YET STRONG WOODS TO PROVIDE POWER, PRECISION AND BALANCE WITH CONSISTENT FLEX CHARACTERISTICS. LIGHTER YET STRONGER THAN OUR FULL POPLAR CORE, THIS BLEND INCREASES RESPONSE AND PRECISION. BIRCH REINFORCEMENT IN ALL OF OUR BOARDS INCREASES DURABILITY FOR GREATER CHANNEL™ RETENTION.

ADDITIONAL FEATURES

CARBON

CARBON BEAMS ARE PLACED IN STRATEGIC POSITIONS TO INCREASE POP AND SNAP WITHOUT ADDING OVERALL WEIGHT COMPARED TO TRADITIONAL FIBREGLASS ONLY CONSTRUCTIONS. CARBON ALSO ADDS FLEX MEMORY, SUPPORTING THE CAMBER SHAPE SO THE BOARD REMAINS LIVELY OVER TIME AND USE.

SMOOTHRIDE

INFUSED URETHANE SIDEWALLS WHICH REDUCE VIBRATION AND IMPACT, SIMILAR TO HOW URETHANE SKATEBOARD WHEELS CREATE A SMOOTH RIDE ON ROUGH CONCRETE. DAMPENING THE RIDE, REDUCES BOARD CHATTER AND LEG FATIGUE AND PROVIDES THE RIDER WITH THE SMOOTHEST RIDE EVER.

INERTIA CARBON RODS

THREE DIMENSIONAL CARBON RODS WITH A VARIABLE DIAMETER ARE TAILORED TO PRODUCE SPECIFIC RATES OF FLEX AND REBOUND. UNLIKE CARBON STRIPS THAT CONFORM TO THE SHAPE OF A BOARD'S CORE AND CAN ONLY FLEX ALONG ONE AXIS, INERTIA RODS CAN FLEX AND REBOUND IN ANY DIRECTION FOR UNPARALLELED RATES OF RESPONSE, PREDICTABLE AND CONSISTENT FLEX AND DURABLE STRENGTH THAT DOESN'T DETERIORATE OVER TIME.

CHECKERSPOT ALGAL CORE + WALL

ALGAL CORE IS A VERTICALLY LAMINATED COMPOSITE OF BIOBASED HIGH DENSITY POLYURETHANE. THIS REDUCES WEIGHT AND OFFERS DAMPENING PROPERTIES OTHERWISE UNATTAINABLE IN SOLID WOOD CORE CONSTRUCTION WHILE REMAINING STABLE AND INTUITIVE TO THE SNOWBOARD.

ALGAL WALL IS A BIOBASED CAST POLYURETHANE THAT PROTECTS THE ALGAL CORE AND DELIVERES SUPERIOR DAMPENING AND RESISTANCE TO IMPACT COMPARED TO TRADITIONAL ABS SIDEWALLS.

SUPER SAP

SUPER SAP TECHNOLOGY REDUCES ENVIRONMENTAL IMPACT WITHOUT COMPROMISING PERFORMANCE. EVERY SUPER SAP PRODUCT IS USDA CERTIFIED BIO BASED.
