OBEY₀
MEN'S COLLECTION
FALL 2016

THE OBEY CAMPAIGN CAN BE EXPLAINED AS AN EXPERIMENT IN PHENOMENOLOGY. THE FIRST AIM OF PHENOMENOLOGY IS TO REAWAKEN A SENSE OF WONDER ABOUT ONE'S ENVIRONMENT. THE OBEY CAMPAIGN ATTEMPTS TO STIMULATE CURIOSITY AND BRING PEOPLE TO QUESTION BOTH THE CAMPAIGN AND THEIR RELATIONSHIP WITH THEIR SURROUNDINGS. BECAUSE PEOPLE ARE NOT USED TO SEEING ADVERTISEMENTS OR PROPAGANDA FOR WHICH THE MOTIVE IS NOT OBVIOUS, FREQUENT AND NOVEL ENCOUNTERS WITH OBEY PROPAGANDA PROVOKE THOUGHT AND POSSIBLE FRUSTRATION, NEVERTHELESS REVITALIZING THE VIEWER'S PERCEPTION AND ATTENTION TO DETAIL. TO CATALYZE A THOUGHTFUL DIALOGUE DECONSTRUCTING THE PROCESS OF IMAGE ABSORPTION IS THE ULTIMATE GOAL. ALL IN THE NAME OF FUN AND OBSERVATION.

THE MEDIUM IS THE MESSAGE.

SUPPLY AND DEMAND BOOK

100070000

• Supply & Demand, The Art of Shepard Fairey-20th Anniversary Edition expands upon the previous version of this book and adds 100 new pages of illustrations and text to showcase Fairey's entire body of work, a massive retrospective covering 20 colorful years

COVERT TO OVERT BOOK

326000035M

- OBEY: Covert to Overt showcases Shepard Fairey's evolution from works on paper to grander art installations, cross-cultural artworks, and music/art collaborations. The book also includes his ubiquitous streetwear and chronicles his return to public artworks. His signature blend of politics, street culture, and art makes Fairey unlike any other subculture/street artist working today.

 This book showcases the significant amount of art he has created the last several years: street murals, mixed-media installations, art/music events, countless silk
- screens, and work from his extremely successful OBEY brand.

 24 1" pins featuring seasonal OBEY artwork. Perfect for hooking customers up at checkout.

STOP FUNDING FOSSILS

The number 350 means climate safety: to preserve a livable planet, scientists tell us we must reduce the amount of CO2 in the atmosphere from its current level of 400 parts per million to below 350 ppm.

We believe that a global grassroots movement can hold our leaders accountable to the realities of science and the principles of justice. That movement is rising from the bottom up all over the world, and is uniting to create the solutions that will ensure a better future for all. 350.org was founded by a group of university friends in the U.S. along with author Bill McKibben, who wrote one of the first books on global warming for the general public.

When we started organizing in 2008, we saw climate change as the most important issue facing humanity — but climate action was mired in politics and all but stalled. We didn't know how to fix things, but we knew that one missing ingredient was a climate movement that reflected the scale of the crisis.

So we started organizing coordinated days of action that linked activists and organizations around the world, including the International Day of Climate Action in 2009, the Global Work Party in 2010, Moving Planet in 2011, and Climate Impacts Day in 2012. We held the "world's biggest art installation" and "the most widespread day of political action in the planet's history." We figured that if we were going to be a movement, then we had to start acting like one.

Today, 350.org works in almost every country in the world on campaigns like fighting coal power plants in India, stopping the Keystone XL pipeline in the U.S, and divesting public institutions everywhere from fossil fuels. All of our work leverages people power to dismantle the influence and infrastructure of the fossil fuel industry, and to develop people-centric solutions to the climate crisis.

For more information, visit their website: http://350.org/
