# MADE FOR ANYWHERE ON YOUR MAP.™

At Topo Designs, we're rooted in mountain culture and outdoor living, but love exploring cities and world travel. We look to proven classics for inspiration, yet take advantage of innovative technologies to ensure a timeless look with modern functionality. We are uncomplicated and utilitarian, but with a sense of design and style through simplicity. Our goal is to not have to choose a single path—we want to live on both sides of the fence.

## OUR ROOTS

Growing up in the West, Jedd Rose and Mark Hansen were always interested in spending time outside and finding the right gear for getting out: classic, mountain-inspired carry-all bags and comfortable, functional, wear-it-everywhere apparel. And when they couldn't find what they were looking for—simple, well-designed products like the ones they grew up with—they realized they had two options: compromise or create. Luckily, Jedd and Mark decided on the latter, and Topo Designs was born. Our origin story is evident in every one of our pieces. Each product we make is unmistakably—and unapologetically—Topo Designs: the pairing of classic styling and our core color palette, a mix of the high-quality, durable gear we use and love every day, inspired by heritage outdoor styles, classic military shapes and our Western roots.

## DESIGN

It's in our name for a reason. Everything we do—every sketch, snap, button, shank, rivet, zipper, paracord loop, double-layer, triple-stitch, cover stitch, lock stitch, pattern, cinch cord, bar tack, gusset, lining, pocket, cuff, collar, brim, buckle, sleeve, hem, yoke, pull tab, storm flap, thread color, lab dip, belt loop, vent, care label, pleat, dart, zip pull and lash tab is the result of (many) conscious design decisions. Our attention to detail and design is what makes our products functional and versatile enough to fit into your life and stay there.

## MAP GUARANTEE™

We build products that stand the test of time and work anywhere on your map. Wherever you're headed, we guarantee that everything we make will go out and come back in one piece, year after year. The MAP Guarantee™ is our commitment to you, and to the quality of our products. We offer a lifetime warranty on all bags against defects in materials and workmanship. We also offer a limited warranty on our apparel to cover problems with the material or workmanship. If you're not ready to let go of a well-loved piece, we offer a repairs program to fix up old favorites.

## SUSTAINABILITY

As a brand, we know it's our responsibility to make sure every step of our manufacturing process is as sustainable as it can be. Our holistic approach to sustainable manufacturing can be summed up by our focus in three key areas: environmental impact, social ramifications and durability.

### Environmental.

We practice responsible sourcing and manufacturing, carefully monitoring factors like energy use, waste and chemicals to ensure that the impact we leave on communities—and the earth—is as positive as possible. We work with sustainability-minded manufacturing partners who use green-based chemicals and efficient dyeing techniques to ensure our products, and our process, are advancing with developments in eco-friendly technology.

### Social.

Sustainable business practices matter. We adhere to a strict internal code of standards for our factory workers. We are proud to work with mills that actively do the right thing.

### Durable.

We believe in sustainability by durability. By building products to be tough enough to withstand years of wear and offering our MAP Guarantee™ to repair, rather than replace, gear that has been loved a little too hard, we're able to reduce waste at the individual consumer level.

# HERITAGE COLLECTION

## Colorado Heritage.

Mountain-inspired durability, city-friendly silhouettes. Classic, but never out of style. Everyday essentials, quintessentially Topo Designs. Our Heritage pieces are exceptional bags and accessories that are designed to do it all. They are all the little things that make Topo Designs itself, distilled into a new line that reinvents our signature silhouettes as capable, sophisticated pieces. Each Heritage piece is stitched by hand in Colorado with superior craftsmanship and US-made materials. Premium Horween® leather and rich canvas colors create a timeless look that is at home anywhere on your map.

Reduced Water Consumption

Lower Temperature Wash Process

Green Process Technology

Minimized Energy Consumption

Sustainable Wash Methods

It's no secret that making products is a dirty process. So we built our Dirt Collection to make it better. More than just apparel, the Dirt Collection is our responsibility as a business—and as people—to minimize our footprint. We began with fabrics that can withstand all of the hard work and rough handling that life brings its way, keeping it in your wardrobe for years to come. But it doesn't stop there. By implementing a green technology-driven, sustainably-minded manufacturing process, we are able to guarantee that every piece is made with the utmost care and concern for the environment. The processes used to build and dye the Dirt Collection use ethical, green-based chemicals to reduce environmental impact, garment dyeing to cut down on water consumption by up to 50% and waste produced by batch dyes. The result is a responsibly designed line of products; ones that are made better, will last longer and can handle a little dirt.

# MATERIALS

What makes a great product? Great building blocks. We use high-quality materials in all of our products: sturdy 1000D Cordura®, PrimaLoft® down and eco fills, premium Horween® leather and recycled Polartec® fleece. We use materials we believe in, that are reliable, durable and good-looking, because your gear is only as good as the things that make it.

Hailed throughout the outdoor industry and beyond, **Polartec®** fleece has a quality build that lasts for years, supporting our mission of sustainability by durability. We use 100% recycled Polartec® fleece to further minimize our environmental impact.

Produced by American-founded Horween Leather Co. in Chicago, Illinois, **Horween®** leather is widely recognized as the gold standard. This reputable American tannery supplies premium quality leather that is used in products ranging from our classic, US-made bags to the balls used by the NBA and NFL.

## Signature Topo Designs Materials

We know what we want our gear to be. The quality, the performance, the technical elements. And we don't cut corners to get there. This attitude has resulted in several signature Topo Designs fabrics; unique, innovative materials that capture who we are and where we're from. We build sophisticated, 10k waterproof-rated layers with our **GlobalDry™** Waterproof Oxford and comfortable wool layers using our one-of-a-kind **GlobalWool™**. Because sometimes the best way to get what you want is by starting from scratch.

Hardware

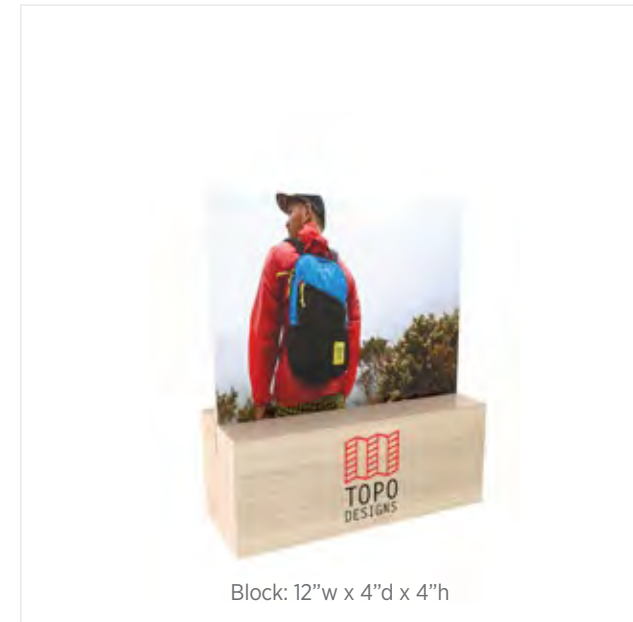

**Cordura®** is the foundation of many of our pieces for good reason: unmatched durability. The sturdy nylon was originally created for the military and has remained a durable staple in standard issue equipment as well as outdoor gear built for extended outdoor use. Though recognized for its toughness, we also love Cordura® nylon for its long-lasting color retention.

A synthetic insulation that performs like real down, we're proud to use **PrimaLoft®** in many of our insulated outerwear pieces. Many of our jackets contain PrimaLoft Black Eco® fill, which is manufactured from recycled plastic bottles, keeping you cozy while keeping plastic out of the landfill.
