Spring 2022 Workbook

The New Outdoor

We all know the old outdoor. It's focused on hyper-specialized gear, the never-ending quest for once in a lifetime activities, and the desire to be part of an exclusive club that few could ever join. We get it, we've been there, and it's one of the reasons we started Topo Designs.

We see a New Outdoor, one that expands the very definition of being outside. It's an inclusive place that allows us, regardless of who we are, to be both the outsider and the insider, the novice and the pro. It embraces utility, which allows us to do more with less, and blur the boundaries between life and outdoor. Above all, it approaches sustainability as a way to design life, rather than an isolated initiative or short-term fix.

Join us, invite others, and let's step into The New Outdoor.

OUR ROOTS

Growing up in the West, Jedd Rose and Mark Hansen were always interested in spending time outside and finding the right gear for getting out: classic, mountain-inspired carry-all bags and comfortable, functional, wear-it-everywhere apparel. And when they couldn't find what they were looking for—simple, well-designed products like the ones they grew up with—they realized they had two options: compromise or create. Luckily, Jedd and Mark decided on the latter, and Topo Designs was born.

Our origin story is evident in every one of our pieces. Each product we make is unmistakably—and unapologetically—Topo Designs: the pairing of classic styling and our core color palette, a mix of the high-quality, durable gear we use and love every day, inspired by heritage outdoor styles, classic military shapes and our Western roots.

MAP GUARANTEE™

We build products that stand the test of time and work anywhere on your map. Wherever you're headed, we guarantee that everything we make will go out and come back in one piece, year after year.

The MAP Guarantee is our commitment to you, and to the quality of our products. We offer a lifetime warranty on all bags against defects in materials and workmanship. We also offer a limited warranty on our apparel to cover problems with the material or workmanship. If you're not ready to let go of a well-loved piece, we offer a repairs program to fix up old favorites.

DESIGN

It's in our name for a reason. Everything we do—every sketch, snap, button, shank, rivet, zipper, paracord loop, double-layer, triple-stitch, cover stitch, lock stitch, pattern, cinch cord, bar tack, gusset, lining, pocket, cuff, collar, brim, buckle, sleeve, hem, yoke, pull tab, storm flap, thread color, lab dip, belt loop, vent, care label, pleat, dart, zip pull and lash tab is the result of (many) conscious design decisions. Our attention to detail and design is what makes our products functional and versatile enough to fit into your life and stay there.

SUSTAINABILITY

As a brand, we know it's our responsibility to make sure every step of our manufacturing process is as sustainable as it can be. Our holistic approach to sustainable manufacturing can be summed up by our focus in three key areas: environmental impact, social ramifications and durability.

Environmental:

We practice responsible sourcing and manufacturing, carefully monitoring factors like energy use, waste and chemicals to ensure that the impact we leave on communities—and the earth—is as positive as possible. We work with sustainability-minded manufacturing partners who use green-based chemicals and efficient dyeing techniques to ensure our products, and our process, are advancing with developments in eco-friendly technology.

Durable:

We believe in sustainability by durability. By building products to be tough enough to withstand years of wear and offering our MAP Guarantee to repair, rather than replace, gear that has been loved a little too hard, we're able to reduce waste at the individual consumer level.

Social:

Sustainable business practices matter. We adhere to a strict internal code of standards for our factory workers. We are proud to work with mills that actively do the right thing.

Dirt Collection

Sustainability and comfort built from the ground up.

It's no secret that making products is a dirty process. So we built our Dirt Collection to make it better. More than just apparel, the Dirt Collection is our responsibility as a business—and as people—to minimize our footprint. We began with fabrics that can withstand all of the hard work and rough handling that life brings its way, keeping it in your wardrobe for years to come.

But it doesn't stop there. By implementing a green technology-driven, sustainably-minded manufacturing process, we are able to guarantee that every piece is made with the utmost care and concern for the environment. The processes used to build and dye the Dirt Collection use ethical, green-based chemicals to reduce environmental impact, garment dyeing to cut down on water consumption by up to 50%, and waste produced by batch dyes. The result is a responsibly designed line of products; ones that are made better, will last longer, and can handle a little dirt. Dig in.

RIVER BAG

Inspired by our love for rivers and river culture, the River Collection lives and breathes for the outdoors. Built with recycled materials, UPF protective elements, technical aesthetics and a versatile range of use cases. The River Collection accompanies any float trip, road trip, or wherever travels take you.

Mountain Collection

We were born out of mountain culture's influence. Hardworking, utilitarian gear that spans the test for decades. Our Mountain Collection inherits those hearty traits, with a modern approach using a rich color palette, durable build materials, and super strong, lightweight recycled nylons.
