Spring 2022 Dirt Collection

DIRT COLLECTION

**Better technology. Better chemistry.
Lesser impact.**

It's no secret that making products is a dirty process. So we built our Dirt Collection to make it better. More than just apparel, the Dirt Collection is our responsibility as a business—and as people—to minimize our footprint. We began with fabrics that can withstand all of the hard work and rough handling that life brings its way, keeping it in your wardrobe for years to come.

But it doesn't stop there. By implementing a green technology-driven, sustainably-minded manufacturing process, we are able to guarantee that every piece is made with the utmost care and concern for the environment.

The processes used to build and dye the Dirt Collection use ethical, green-based chemicals to reduce environmental impact, garment dyeing to cut down on water consumption by up to 50%, and waste produced by batch dyes. The result is a responsibly designed line of products; ones that are made better, will last longer, and can handle a little dirt.
