MADE FOR ANYWHERE ON YOUR MAP.™

**TOPO
DESIGNS**

MADE FOR ANYWHERE ON YOUR MAP.™

At Topo Designs, we're rooted in mountain culture and outdoor living, but love exploring cities and world travel. We look to proven classics for inspiration, yet take advantage of innovative technologies to ensure a timeless look with modern functionality. We are uncomplicated and utilitarian, but with a sense of design and style through simplicity. Our goal is to not have to choose a single path—we want to live on both sides of the fence.

OUR ROOTS

Growing up in the West, Jedd Rose and Mark Hansen were always interested in spending time outside and finding the right gear for getting out: classic, mountain-inspired carry-all bags and comfortable, functional, wear-it-everywhere apparel. And when they couldn't find what they were looking for—simple, well-designed products like the ones they grew up with—they realized they had two options: compromise or create. Luckily, Jedd and Mark decided on the latter, and Topo Designs was born. Our origin story is evident in every one of our pieces. Each product we make is unmistakably—and unapologetically—

Topo Designs: the pairing of classic styling and our core color palette, a mix of the high-quality, durable gear we use and love every day, inspired by heritage outdoor styles, classic military shapes and our Western roots.

DESIGN

It's in our name for a reason. Everything we do—every sketch, snap, button, shank, rivet, zipper, paracord loop, double-layer, triple-stitch, cover stitch, lock stitch, pattern, cinch cord, bar tack, gusset, lining, pocket, cuff, collar, brim, buckle, sleeve, hem, yoke, pull tab, storm flap, thread color, lab dip, belt loop, vent, care label, pleat, dart, zip pull and lash tab is the result of (many) conscious design decisions. Our attention to detail and design is what makes our products functional and versatile enough to fit into your life and stay there.

MAP GUARANTEE™

We build products that stand the test of time and work anywhere on your map. Wherever you're headed, we guarantee that everything we make will go out and come back in one piece, year after year.

The MAP Guarantee™ is our commitment to you, and to the quality of our products. We offer a lifetime warranty on all bags against defects in materials and workmanship. We also offer a limited warranty on our apparel to cover problems with the material or workmanship. If you're not ready to let go of a well-loved piece, we offer a repairs program to fix up old favorites.

SUSTAINABILITY

As a brand, we know it's our responsibility to make sure every step of our manufacturing process is as sustainable as it can be. Our holistic approach to sustainable manufacturing can be summed up by our focus in three key areas: environmental impact, social ramifications and durability.

Environmental.

We practice responsible sourcing and manufacturing, carefully monitoring factors like energy use, waste and chemicals to ensure that the impact we leave on communities—and the earth—is as positive as possible. We work with sustainability-minded manufacturing partners who use green-based chemicals and efficient dyeing techniques to ensure our products, and our process, are advancing with developments in eco-friendly technology.

Social.

Sustainable business practices matter. We adhere to a strict internal code of standards for our factory workers. We are proud to work with mills that actively do the right thing.

Durable.

We believe in sustainability by durability. By building products to be tough enough to withstand years of wear and offering our MAP Guarantee™ to repair, rather than replace, gear that has been loved a little too hard, we're able to reduce waste at the individual consumer level.

DIRT COLLECTION

Better technology. Better chemistry. Lesser impact.

It's no secret that making products is a dirty process. So we built our Dirt Collection to make it better. More than just apparel, the Dirt Collection is our responsibility as a business—and as people—to minimize our footprint. We began with fabrics that can withstand all of the hard work and rough handling that life brings its way, keeping it in your wardrobe for years to come.

But it doesn't stop there. By implementing a green technology-driven, sustainably-minded manufacturing process, we are able to guarantee that every piece is made with the utmost care and concern for the environment.

The processes used to build and dye the Dirt Collection use ethical, green-based chemicals to reduce environmental impact, garment dyeing to cut down on water consumption by up to 50%, and waste produced by batch dyes. The result is a responsibly designed line of products; ones that are made better, will last longer, and can handle a little dirt.

ROVER PACK FAMILY

8 styles. 55 colors.

The Rover Pack is one of our most widely-recognized bags, and for good reason. It's one of the first bags added to the Topo Designs lineup, and one of the most iconic. Season after season, the Rover Pack proves itself as an enduring piece; a versatile staple that will never go out of style. Expanding the color and style offering was a natural next step for us, one that allows us to showcase and expand upon a truth we've known since its inception over ten years ago: there is a Rover Pack for everyone.

MOUNTAIN SPORT™ COLLECTION

Vintage sport aesthetics. Modern functionality.

Intertwined with our roots in the mountains is our passion for the history of sport design; our obsession with good-looking, vintage sport-inspired aesthetics and giving that rich history a vibrant new life with unique, mountain-influenced elements. After all, Colorado is in our DNA, and has been since Topo Designs began over ten years ago. We spend our weekends climbing, running in the foothills, fly fishing up the canyon. We've always been a grit-your-teeth-and-go group of people. A little bit of dirt? Extra layer. Bruise? Badge of honor. Our Mountain Sport apparel builds on our roots — who we are and everything we do — and takes them to the next level. Where style and function aren't tradeoffs. Where looking good doesn't mean sacrificing hardcore materials and durability. Technical components elevate timeless silhouettes to protect you from the elements and comfortably move with you as you run, bike and climb to new places on your map.
