**The Dirt Collection is built to clean up the dirty production process. We start with durable organic cotton, then use a garment dyeing process for 95% less water consumption. The Ozone Technology we use in manufacturing our Dirt apparel minimizes our environmental impact with decreased water and energy consumption and non-toxic chemicals. And we build our products to last, because the ultimate sustainability is durability.**

- 1 ORGANIC COTTON**  
Responsibly sourced materials.
- 2 GARMENT DYED**  
Sustainable finish technology that uses 95% less water.
- 3 REDUCED WATER CONSUMPTION**  
Using Ozone Technology, a low-water washing process without toxic chemicals.
- 4 REDUCED ENERGY CONSUMPTION**  
Ozone Technology process uses low temperatures to cut energy consumption.
- 5 SUSTAINABILITY BY DURABILITY**  
It's simple: We build gear that lasts.

A man is shown from the waist down, wearing olive green shorts and a grey t-shirt. He is standing outdoors near a body of water, with trees in the background. The shorts have a black elastic waistband and a small logo on the lower right leg. The text "Men's Bottoms" is overlaid in white, bold, sans-serif font across the center of the image.

A man and a woman are hiking together, seen from behind. The woman on the left is wearing a blue backpack with a white label that says 'TOPO' and a pink long-sleeved shirt. The man on the right is wearing a green and blue backpack and a light blue button-down shirt. They are holding hands and walking through a landscape with many palm trees under a clear blue sky.
